EZRM, a Wholly Owned Arm of Chemkart, Commences Construction of Greenfield Nutraceutical Manufacturing Facility at JNPA SEZ

Mumbai, August 8, 2025 - Chemkart India Limited (CIL), a leading B2B nutraceutical ingredient distributor and processor, is proud to announce that its wholly owned subsidiary, **Easy Raw Materials Pvt. Ltd. (EZRM)**, has commenced construction of a **greenfield advanced Nutraceutical Manufacturing facility** at the JNPA Special Economic Zone (SEZ) in Maharashtra.

This project marks a strategic step into manufacturing from Chemkart's established base in trading and distribution, reflecting the company's long-term vision to become a fully integrated nutraceutical solutions provider. The greenfield facility, being developed by EZRM, is designed as a modern Contract Development and Manufacturing Organization (CDMO) that will cater to formulation, packaging, and global exports of advanced health supplements.

With a strong focus on novel ingredient technologies such as microencapsulation, liposomal delivery systems, and enhanced bioavailability formats, the facility will be equipped to meet the growing demand for next-generation nutraceuticals across domestic and international markets.

Following the Bhumi Pujan held on July 19, 2025, civil and infrastructure work is now in full swing. The SEZ-based facility is strategically located near India's largest container port, ensuring seamless access to global markets. This location also offers duty-free import-export benefits under the SEZ policy, significantly strengthening Chemkart's export capabilities and global competitiveness.

Current Construction Milestones:

- Site clearance completed; platform and bentonite pit excavation in progress
- Pile foundation work initiated with deployment of dual bore drilling machines
- Generator and temporary support infrastructure installed on-site

As a key component of CIL's integrated supply chain, the facility will function as a centralized hub for formulation and packaging, supporting global nutraceutical brands with private label solutions, custom blends, and end-to-end export documentation, all within a single setup.

Chemkart (India) Limited

Highlights of the EZRM SEZ Facility:

- 4,120 sq.m plot leased for a period of 60 years at JNPA SEZ, Raigad
- Integrated CDMO operations covering formulation, packaging, and global dispatch
- Multiple dosage formats including tablets, capsules, jars, and sachets
- Export-oriented design with SEZ-compliant labelling, documentation, and logistics infrastructure
- Incorporation of advanced technologies such as microencapsulation, liposomal delivery systems, and enhanced bioavailability formats
- Modern infrastructure comprising quality control laboratories, warehousing, utilities, administrative block, and sustainability features

"EZRM will set new benchmarks in ingredient innovation, regulatory compliance, and global serviceability," said a CIL spokesperson.

Visual Glimpses of the Greenfield Project Kickoff:

Chemkart (India) Limited

About Easy Raw Materials Pvt. Ltd.

Incorporated in 2020, **Easy Raw Materials Pvt. Ltd.** is a 100% subsidiary of Chemkart India Limited. It is focused on the manufacturing and export of high-quality nutraceutical and wellness products, driven by sustainability, automation, and cutting-edge formulation technologies.

About Chemkart (India) Limited

A BSE-listed digital-first company, **Chemkart India Limited** is reimagining the nutraceutical supply chain through vertically integrated operations from raw material sourcing to finished formulation manufacturing.
